MEMORANDUM OF UNDERSTANDING  
HOUSING REHABILITATION SERVICES

INTRODUCTION

The purpose of this memorandum dated February 15, 1989, between San Joaquin County and the City of Lodi is to establish an agreement between the County and City with regard to the use of Community Development Block Grant (CDBG) funds for the rehabilitation of eligible housing in Lodi, paid for with City CDBG monies and administered by the County.

WORK PROGRAM

The County agrees to carry out those activities specified in the San Joaquin Housing Rehabilitation Program (copy attached and incorporated by reference) necessary to bring about the rehabilitation of housing located within the City of Lodi, particularly within the incorporated portions of the City east of the Southern Pacific Railroad that meet the requirements listed under "USE OF FUNDS."

BUDGET AMOUNT

The City shall initially transfer the entire amount of funds allocated to housing rehabilitation plus interest to the County on April 1, 1989, to be held in a separate account (from the County's) with the County's bank. The City may augment this fund by allocating additional monies in the future. The County may draw from this account to receive reimbursement for any related administrative services rendered on behalf of Lodi subject to the limitations found in §570.206 of the Housing and Community Development Act of 1974 (as amended), 24 CFR Part 570.

USE OF FUNDS

Use of funds pursuant to this Memorandum of Understanding shall be in accordance with the Housing and Community Development Act as cited, any other regulations governing the CDBG Program, and any amendments or policy revisions thereto which become effective during the term of this agreement. In addition, the City and County agree to comply with other applicable laws, including Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, and Executive Order No. 11063.

All funds contributed by the City must be held in separate from the County's and may only be used for housing rehabilitation within the City of Lodi and any related administration and servicing expenses.

#### PERIOD OF AGREEMENT

This Memorandum of Understanding shall be in force for as long as the City defers its entitlement city status and participates in an urban county agreement with the County; or until 30 days after either party gives written notice to the other party of its intent to cancel the agreement.

#### DOCUMENTATION

The County shall notify the City of the names, addresses, and amounts of each rehabilitation loan approved at least 14 days before the commencement of work. The County shall also notify the City within 14 days of the completion of work.

The County shall provide the City with a status report on a quarterly basis outlining the number and amount of loans made, the number of jobs started and completed, the status of jobs in progress, and the amount incurred for administrative expenses.

The County shall also provide the City with a photocopy of any bank statements for the account(s) held on the City's behalf.

#### MONITORING

The City shall have the right to review any pertinent records upon five (5) days advance notice given to the County.

#### CITY RESPONSIBILITIES

The City agrees that it shall not charge more than \$100.00 for a building permit issued in connection with a rehabilitation loan issued pursuant to this agreement (Lodi City Council Resolution 88-52). Responsibility for the normal building inspection of such jobs shall rest with the City.

The City further agrees to volunteer the services of its Community Development Block Grant Coordinator to assist in the resolution of any unique problems that may arise in the course of administering housing rehabilitation in the City.

#### BUSINESS AND EMPLOYMENT OPPORTUNITIES

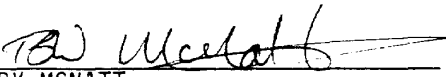

To the greatest extent possible, opportunities for training and employment are to be given to lower income residents of the project area, and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by, persons residing in the area of the project. The County should make every effort to encourage local Lodi area contractors to bid.

IN WITNESS WHEREOF, the parties hereto have executed this agreement the day and year first hereinabove written.

## ELIGIBLE REHABILITATION WORK ACTIVITIES

### A. ITEMS HAZARDOUS TO LIFE AND SAFETY.

These include repairs which are necessary to eliminate an immediate threat to the life and safety of an individual. Such repairs may include, but not be limited to:

- 1) Repairs to correct sagging structural parts of a home (i.e., porch, roof, floor, foundation overturning, etc.) which are likely to collapse in the immediate future.
- 2) Electrical repairs to correct conditions which are likely to result in a fire, or threaten life.
- 3) Plumbing repairs, including septic system failures which involve exposed sewage, unsafe drinking water systems and heaters; etc.
- 4) Mechanical systems repairs which involve conditions likely to result in a dwelling fire or leakage of gas which could cause death.
- 5) Other repairs needed to correct conditions which could result in an explosion or threaten life.

### B. GENERAL HOUSING CODE AND HEALTH AND SAFETY CODE ITEMS.

These include repairs necessary to eliminate inadequate or improperly installed electrical, plumbing, heating fixtures, and structural conditions which, although not necessary to eliminate an immediate threat to life, represent deteriorated and/or inadequate housing. Such repairs may include, but not be limited to:

- 1) Repairs necessary to eliminate Housing Code and Health and Safety Code deficiencies.
- 2) Repairs necessary to correct electrical and lighting defects, plumbing defects, and heating system defects.

## DEFINITIONS

### AMORTIZED LOANS

Low interest loans which require a monthly payment towards the principal amount and interest over a specified period of time until the loan has been repaid.

### DEFERRED LOANS

A loan without accrued interest, for which no monthly payments of the principal amount are required. Loan becomes due and payable in the event of change of ownership.

Note\* Deferred loans are generally restricted to those persons 65 years of age on fixed incomes, or those who are handicapped and/or disabled.

### AFFORDABLE RENTS

Rents shall be considered affordable and units accessible to persons of low/moderate incomes if that person or family is not required to pay in excess of 25% of his or her gross family income for rent, inclusive of utilities. For tenants currently in occupancy, affordability shall be: rents prior to rehabilitation or 25% of gross family earnings, whichever is the greater amount.

HOUSING REHABILITATION  
POLICY STATEMENT

1. THE COUNTY SHALL ALLOCATE ENTITLEMENT RESOURCES AND PROGRAM INCOME IN A MANNER TO REACH A MAXIMUM NUMBER OF COUNTY RESIDENTS AND TO ENSURE THE LONG TERM STABILITY OF THE PROGRAM.

Discussion: In formulating new program guidelines consistent with this policy, staff analyzed the historical data on the existing lump-sum agreement, the types of loans unwritten by the bank and the clients served.

Staff is reasonably convinced that the return to the county under its existing agreement will not immediately or appreciably contribute to the long term stability of the program. Staff, therefore, suggests the following guideline changes in implementing this policy statement:

- A. Staff is permitted to bank its own loans under a loan servicing agreement. This would mean that principal and interest payments, less loan servicing or monthly charges, would be returned to the program;
- B. Staff is permitted to offer loans at maximum of 5% interest, amortized over thirty years;
- C. Staff is permitted to adjust the interest rate of the loan period to ensure the twofold goal of reaching the maximum number of county residents and to make some form of loan affordable to most applicants.
- D. Staff is permitted to make a loan to owners of rental properties at an interest rate at 3% below the current market rate for similar loans. Investor loans are to be amortized over a 10 year period; and,
- E. Staff can offer deferred loans to applicants who are 62 years of age or older, handicapped, or disabled. Loans would be at 0 interest rate and become due and payable with the change in ownership.

2. THE COUNTY SHALL ENSURE THE REHABILITATION OF ALL RESIDENTIAL STRUCTURES TO A LEVEL CONSISTENT WITH HOUSING CODE REQUIREMENTS AND TO TAKE THOSE STEPS NECESSARY TO ELIMINATE OBVIOUS HEALTH AND SAFETY VIOLATIONS OR EMERGENCY HOUSING CONDITIONS.

Discussion: The existing housing rehabilitation program has always addressed housing code and health and safety violations and it is also the intent to continue this practice, however, other communities (Stockton, included) provide for limited loans or grants to homeowners to resolve life threatening conditions. Because of the immediacy of the problem, traditional loan application processing is normally waived as well as any order of priority based on the date of the receipt of applications. Staff suggest the following implementing guidelines:

- A. The Director of Public Works shall have the authority to determine if an emergency exists and to authorize the expenditure of funds outside the normal processing procedures.
- B. Emergency loans or grants shall be limited to amount necessary to correct the life threatening conditions, but in no event, shall the cost of repairs exceed \$5,000.

3. THE COUNTY SHALL ESTABLISH A PRIORITY IN THE ALLOCATION OF FUNDS AND RESOURCES.

Discussion: The existing policy generally speaks to the preference or priority of applicants to be served; however the issue of how to treat investor-owned property, identified emergencies and loan or grant limits have not been fully stated. Staff suggest the following implementing guidelines:

- A. The order of priority, given limited resources, should be: owner-occupied, single family dwellings; renter-occupied, single family dwellings; multi-family rental units where one unit is occupied by the owner, and other multi-family housing.
- B. The order of priority can be modified by the Director of Building Inspections to resolve those housing conditions which are life threatening or of an extreme emergency.
- C. Rehabilitation loans shall be limited to the following amounts:

Amortized Loans	\$25,000
Deferred Loans	18,000
Comb. Amor/Defer	25,000
Emergency Loans/Grants	5,000
Sewer Connections	2,500

4. THE COUNTY SHALL ENSURE THAT POLICIES AND PROCEDURES ARE CONSISTENT WITH FEDERAL, STATE AND LOCAL PROGRAM REQUIREMENTS.

Discussion: Historically there have been very few changes in the County's Housing Rehabilitation Program since its inception. The major modifications are normally in response to HUD's periodic changes in the Income Eligibility Limits.

With the adoption of these policy statements, modification to the rehabilitation guidelines would reflect only statutory or regulatory requirements as imposed by HUD or HDC.

Staff suggests the following implementing guidelines:

- A. Staff is permitted to amend the Housing Rehabilitation Program guidelines as may be required from time to time, to be consistent with changes in federal law; however no amendment will be made where such changes would be in conflict with a stated policy of the Board of Supervisors.
  - B. Amendment of establish loan and grant amounts are to be approved by the Board of Supervisors; and
  - C. Any proposed changes in the program which would effect the scope or nature of the program would require Board of Supervisor review and approval.
5. THE COUNTY SHALL ENSURE THE CONFIDENTIAL TREATMENT OF APPLICANT INFORMATION CONSISTENT WITH FEDERAL, STATE AND LOCAL REGULATIONS.

Discussion: Although there has not been a problem with the confidential treatment of an applicant's financial information submitted with loan applications, a restatement of the wishes of the Board of Supervisors would be appropriate.
